

Fast Flying Geese

Cut your fabrics according to the directions.

Draw a diagonal line on the back of the "sky"

Place this on the right side of your "goose". Be sure to line up the outside edges.

Sew just a hair above the line as shown.

Press the fabric back and check to make sure the edges are covered, trim excess if necessary. Trim the bottom and middle layer of fabric and press again. See snowball directions if necessary.

Next do the other side exactly as you did the first.

Your flying geese is complete!
